

HIGHLINE PORTAFAB EXCAVATOR RAKE

HPF Excavator Rakes and Thumbs are engineered and fabricated with end use application as their main design criteria. Our rakes and buckets are interchangeable, allowing for greater versatility for your machine. The addition of an HPF quick attach head or pin grabber allows for bucket-rake interchangeability in a fraction of the time.

APPLICATIONS

- Land Clearing
- Demolition
- Stump Removal
- Rock Placement
- Brush/Slash Piling
- Loading Tub Grinders

RAKE OPTIONS

- Quick Attach Lugging
- Stump Splitter
- Tooth Shear
